

WARNING: from May 22-May 28, the World Health Organization is Attempting a Power Grab of Our Country's Sovereignty

1. Most people have never heard of the **International Health Regulations (IHR)**. The United States agreed to the IHR in 2005. These regulations override and supercede the U.S. Constitution.
2. **On January 18, 2022** the United States **submitted a number of amendments to the IHR** (read at <https://wireamerica.org/who>) that give away even more of our sovereignty and greatly **empower the World Health Organization (WHO) to restrict YOUR health related rights and freedoms.**
3. The 75th meeting of the World Health Assembly will be held in Geneva, Switzerland this from May 22-28, 2022. The Assembly will vote on the amendments to the IHR. They are very likely to pass and be enacted into international law **unless "We the People" stand up against this attack on our sovereignty.**
4. These amendments to the International Health Regulations **do NOT need to be approved by two-thirds of the U.S. Senate.** We have already agreed to obey the IHR by virtue of our membership in the United Nations and the WHO. We have already given away some of our sovereignty. These amendments are designed to **confuse the member nations into giving away even more of their sovereignty.**
5. In addition to the proposed amendments to the IHR, the WHO has also set up an Intergovernmental Negotiating Body (INB) that is actively negotiating an international "Treaty on Pandemic Prevention, Preparedness and Response." **The proposed "Pandemic Treaty" is separate from, and in addition to, the proposed amendments to the International Health Regulations mentioned above.**
6. The "Pandemic Treaty" does not yet exist. It is being drafted and negotiated right now. Discussions regarding the "Pandemic Treaty" are important but are **part of a sophisticated diversion to confuse people** and get them to ignore the **immediate matter: the Amendments to the IHR being considered by the World Health Assembly this May 22-28.**
7. **NOW** is the time to speak out and **stand up for your rights.** Tell everyone you know, contact your elected representatives and find tools and next steps at these links:
